

HARU

SPRINT 2 PLAN

SUBIN JEONG, JOOWON LIM, HAKYEONG KIM, TIM BURKHART, MITCHELL ETZEL

Product Name:	Haru (하루)
Team Name:	One Day
Sprint Completion Date:	07/18/2016
Revision Number:	3
Revision Date:	07/18/2016

SPRINT GOAL:

As a team we want to further the development of our system prototype so that we can provide users with the promised usability of a daily dairy app that tracks your GPS location.

TASK LISTING

1. As an app manager, I want to draw tracks on the map to provide the user with the ability to see a daily path of where they went throughout their day. (13)
 - a. Create a Template to save the GPS location and time spent there (4 hours)
 - b. Automate how application keeps track of info throughout the day (6 hours)
 - c. The track color will gradually change as the time pass. (4 hours)

Estimated time: 10 hours

2. As a user, I want to add comments to my daily track so that I can record my feelings and activities at the given time and location. (8)

- c. User can view a page that brings all the comments of a day together. (3 hours)

Estimated time: 3 hours

3. As an app manager, I want to save the daily track and pins that are generated so that the user can keep track of more than one day at a time. (5)

- a. Connect to SQLite Database (3 hours)
- b. Create Template to Save Daily Track + Pin Data Together (4 hours)

Estimated time: 7 hours

4. As a user, I want a User Manual so that I can understand how Haru works. (3)

- a. Create Template User Manual (2 hours)
- b. Update Template as New Functionality is added (1 hour)

Estimated time: 3 hours

5. As an app manager, I want our team to follow the Continuous Integration Practice so that we can gain a better understanding of what it will take to integrate our work together. (3)

- a. Create a method to share our work with the team even if it's 100% (1 hour)
- b. Upload your work before SCRUM meetings (1 hour)

Estimated time: <2 hours
